

Lockdown Assembly

Saint Wulstan's

Thursday 22<sup>nd</sup> February.

Sometimes we have to stay inside to stay safe.

We could be playing or even eating when it is time to have a lockdown. We have to stop what we are doing and follow the adults straight away.

The adults with us will make sure we are all there and safe inside.

Sometimes, there may be an animal outside that could hurt us, like a dog.

If the animal is outside, we can keep playing happily inside. We might even get to see someone catch the animal and take it somewhere safer.

Sometimes, we might have to stay inside if there is a storm outside. Trees and power lines could fall over. Staying inside will keep us safe and we can keep playing.

Sometimes, we have to stay inside because there is a person outside that might not be safe or might hurt us. They might just be a grumpy person or they could be very dangerous. We do not know for sure.

To make sure we know what to do, we have to practice.
