

## Key Instant Recall Facts

### Year 1 Summer 1

#### I can add 10 to a number.

By the end of this half term, children should know that when you add ten to a number, only the tens digit changes. The aim is for them to answer these kind of questions **instantly**.

Children should be able to see that only the tens digit changes when adding ten to a number.

$$2 + 10 = 12$$

$$5 + 10 = 15$$

$$10 + 10 = 20$$

$$16 + 10 = 26$$

$$23 + 10 = 33$$

$$31 + 10 = 41$$

$$37 + 10 = 47$$

They should be able to answer these questions including missing number questions, e.g.  $2 + \bigcirc = 12$  or  $\bigcirc + 10 = 53$ .

### Top Tips

The secret to success is practising **little** and **often**. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day.

Make a counting in tens or fives poster – Can they count forwards and backwards in these patterns?
